

# Emerson Exchange Americas

Session ID	Modernization - General	Session ID	DeltaV
1-159933	Instrumentation + Control + Best Practices + Expertise >= 5% Savings - A Regenerative Furnace History	1-158381	Customer Success Story: Sanofi Achieving Top-Quartile Performance with PM Optimization
1-159940	When Cost Savings are Not Cost Savings – Project Management with Emerson is The Solution	1-161471	My MCC is better than yours! Leveraging the advanced functionality of an EIOC
1-160679	Just Upgraded Your DCS? Time to start over	1-161566	Can you hear me now? Monsanto transforms operational workflows: proven results with DeltaV Mobile
3-159372	How a system upgrade will provide return on capital, and how to accomplish this in less than 12hrs	3-159409	Avoid unplanned Shutdowns using the Power of DeltaV Diagnostics
3-160481	Show Me the Money! Need to Justify Your Automation Project? - Let's Dive into the Methods	3-159500	KOC select ICSS approach based on Electronic Marshalling Technology (CHARMs)
3-160689	How to Use Operational Benefits to Justify Reliability Investments	3-161137	LIVE – Online Upgrade and Virtualization of DeltaV on BP-Whiting CATs Unit
1-162033	Justifying migration of a Hybrid PLC-5 / PROVOX Solution to Native DeltaV	7-160784	Deep dive into Smart Commissioning
<b>Session ID</b>	<b>Modernization - Non-Emerson Systems</b>	7-160848	Mimic Simulation for Operator Training
1-160008	Who needs 3rd party PLC for fast data logging when you have DeltaV?	7-160858	Olefin Plant Energy Savings Through Enhanced Automation
1-160859	A Nightmare becomes a Dream Come True: Migrating from a MOD5 DCS to DeltaV	7-160440	DeltaV PK Controller Product Update
3-161596	DCS systems cost more than PLC/HMI platforms. Fact or Fiction?	<b>Session ID</b>	<b>Project Planning</b>
3-162168	A gas producer conducts an in-depth study to justify changing from PLC platform to DCS Control System	3-161701	Augmented Reality - A Day in the Life of the Operations
3-162254	Modicon PLC I/O Migration to DeltaV CHARMs: Value Creation for Dow	3-161721	Migrating State Based Control (ISA106) and Maintaining Operational Effectiveness
4-162179	Partial Stroke Testing – a Frugal and Novel Approach	3-162455	Control Room Design and Upgrade - Industry Standards and Best Practices
1-161626	BP and Emerson Consider Cutovers Solved – A Live Migration of A Legacy DCS to Emerson DeltaV	7-161641	Five Steps to Better Project Planning – The Project Certainty Way to Lower Total Installed Cost
<b>Session ID</b>	<b>PlantWeb</b>	7-162170	The Playbook: Navigating the options for Legacy DCS/PLC Migrations to the DeltaV™ DCS
2-162128	From Safety Showers to Pump Health Monitoring, A Decade of PlantWeb Digital Ecosystem Hits	<b>Session ID</b>	<b>Project Planning</b>
3-159944	A case study in reducing complexity by optimizing Assets using PlantWeb OPTICS	1-162180	How to squeeze even more value out of your DeltaV Migrations and upgrades
<b>Session ID</b>	<b>DeltaV - Cybersecurity</b>	1-162198	Don't Waste My Time! - Effective FAT Strategies
7-159360	Emerging Cybersecurity Standards for Industrial Control Systems	1-162215	Bridging the gap between Projects and Operations: intermediate team drives project certainty.
7-159361	DeltaV Cybersecurity - A Guide to Protect Your Control System with State-of-the-Art Technology	<b>Session ID</b>	<b>Control Performance / Optimization</b>
<b>Session ID</b>	<b>Personal / Career Development Career</b>	3-159501	Control Loop Performance Monitoring (CLPM) Using DeltaV
5-158328	A Workforce Success Story - Retirement Impacts and the Quest to Attract and Retain Technical Talent	3-159969	How to Sell the Value of Digitalization with MPC
5-161011	Why Every Company Needs a Women in STEM Group & How to Build One	3-161759	Qatar Shell GTL get insight to its critical LPU Blowers health condition with Pervasive Sensing
5-161219	Building Your Personal Brand and Advancing Your Career Opportunities	3-162046	Mission Critical Upgrade - The Hard Way, One Loop at a Time
5-161571	Millennials Are People Too: Attracting and Retaining New Professionals Doesn't Need to be New	3-162182	"Gold Standard" Boiler Control: Increasing Efficiency, Reliability, and Performance (No Curves!)
